- Github - <https://github.com/fikayo1>

## EXPERIENCE

### Bluetick, Remote — Backend Developer Python/Django

June 2022 - PRESENT

Bluetick is a startup that provides digital solutions for Human Resource Management in Nigeria. As a Backend developer, I was responsible for:

- Participate in the entire application lifecycle, focusing on coding and debugging
- Design and implement new features into the mobile app
- Collaborate with Front-end developers to integrate user-facing elements with server side logic
- Liaise with developers, designers and system administrators to identify new features
- API and software documentation
- Improving the runtime of the app

### Zuri, Remote — Program Intern

May 2022 - August 2022

- Assisted with building the api in the project phase.
- Build reusable code and libraries for future use
- Implemented designs from the product design team.
- Provide help for other interns in the program.
- Troubleshoot and debug applications

## EDUCATION

### University of Lagos, Lagos — Bachelor of Science, Mechanical Engineering

January 2022 - September 2026

## PROJECTS

Bluetick API(API for a mobile app)

## SKILLS

- Backend Development (Django).
- Collaboration(Git, Github).
- Cloud Systems (AWS EC2 & S3 Bucket)
- Familiarity with UNIX-based systems and bash terminal
- Developing and documenting RESTful APIs (Postman)

## TECHNOLOGY

- Django.
- Python.
- HTML, CSS.
- Javascript.
- Canva.
- C programming language

## INTERESTS

- Continuous Learning.
- Research.
- Design

## CERTIFICATES
