EXPERIENCE

Bluetick, Remote — *Backend Developer Python/Django*

June 2022 - December 2022

Bluetick is a startup that provides digital solutions for Human Resource Management in Nigeria. As a Backend developer, I am responsible for:

- Participated in the entire application lifecycle, focusing on coding and debugging
- Designed and implemented new features into the mobile app
- Collaborated with Front-end developers to integrate user-facing elements with server side logic
- Worked closely with developers, designers and system administrators to identify and implement new features
- Documented APIs and software functionalities
- Improved the runtime performance of the app

Zuri, Remote — *Backend Developer*

May 2022 - August 2022

- Assisted with building the api in the project phase.
- Developed reusable code and libraries for future use
- Implemented designs from the product design team.
- Provide assistance to other interns in the program.
- Troubleshoot and debugged applications

EDUCATION

University of Lagos, Lagos — *Bachelor of Science, Mechanical Engineering*

January 2021 - September 2026
